## The Meeting at Lans-en-Vercors

### Vercors 2008 in Figures

About 2 000 cavers expected from some 40 European and other French-speaking countries,  
More than 7 days of activities!  
More than 90 organisers,  
More than 20 themes presented,  
More than 10 training sessions and field trips before and after the congress.  
More than 20 attractions for all tastes,  
More than 9 000 m of rope will be used to pre-rig more than 20 caves, including the popular TVT etc...

This is the 2<sup>nd</sup> Circular about Vercors 2008. Many months before the event the organising committee is in the final stages of preparation. We are glad to welcome cavers to make Vercors 2008 a truly pleasurable event for all concerned. We have received enthusiastic responses from the highest levels of caving throughout Europe. The event will feature the best films produced over the past 30 years as well as a historical retrospective. There will be attractions to suit all tastes and more than 20 caves will be pre-rigged (including Gouffre Berger). Of course, there will be the usual warm and lively atmosphere including the popular Speleobar.

### In Brief

Some dates to remember:

**15 th February 2008** : Final date to obtain individual or group attendance registrations at preferential rates;

**15 th December 2007**: submission of resumes for presentations to: [articles.vercors2008@ffspeleo.fr](mailto:articles.vercors2008@ffspeleo.fr)

**15 th February 2008**: submission of finalised articles for publication in congress transactions.

**15 th February 2008**: submission of DVDs and VHS cassettes for films and videos to be projected at the EuroSpeleo Image'In Festival.

Delegations will be arriving from Quebec, North Africa, Lebanon, USA, etc...

The Vercors National National Park, at only a short distance from Grenoble, is ready to welcome you.

We look forward to seeing you soon at VERCORS 2008!
